

Map of Areas Flooded by 2100 in Kingstowne, VA

Patrick Hullman, March 13 2025

Legend

■ Flooded Areas

Map of areas flooded in Kingstowne, Virginia by the year 2100.

This assumes all global sea ice has melted by the end of the century, raising sea level by approximately 60m. This only shows the impact of the maximum possible estimate of sea rise, because the lowest estimate does not impact Kingstowne.
